## OEBC EXAMINATION FEE

On June 20 2019, Optometry Examining Board of Canada (OEBC) announces the exam fee of \$5100 effective June 20 2019. [Exam fees are found here.](#)

In 2017, OEBC updated the exam to bring it into line with new competencies set by the profession and industry-standard testing methods.

Between 2015-2019, fees helped support development costs related to the new entry-to-practice exam. In 2020, the redesigned exam blueprint will best use resources to deliver the most cost effective, valid and defensible exam.

A new exam fee maintains exam development and administration and reflects OEBC's continued commitment to exam defensibility and sustainability.

## ABOUT THE ORGANIZATION

OEBC is a national not-for-profit corporation owned by and serving Canada's 10 provincial regulators. Since 1995, OEBC has developed and delivered a valid, defensible examination to assess competence for entering optometry practice in Canada. The exam is developed and delivered through the generous donation of time by Canadian optometrists.
